SKILLS

TECHNICAL SKILLS

NodeJs
ExpressJS
MongoDB
Socket.io
Redux
Tailwind
Bootstrap
React
TypeScript
JavaScript
CSS
HTML

SOFT SKILLS

Attention to Detail
Verbal communication skills
Organizational Skills
Problem solving Skills
Time Management

TOOLS

Visual Studio Code (VS Code)
Postman
Git & GitHub
MongoDB Compass

EDUCATION

MANIKYA LAL VERMA GOVT. TEXTILE AND ENGINEERING COLLEGE

B.Tech (computer science) 2022 - 2026

CGPA of 9+

LANGUAGES

Hindi
English

AWARDS

Employee of the Month
Promotion and salary increment

ABOUT ME

Frontend-focused engineer with hands-on full-stack experience using the MERN stack. Built and deployed real-time web applications involving Socket.IO, REST APIs, MongoDB, and Google Maps API.

Strong foundation in React, JavaScript, responsive UI development, and backend integration. Experienced in designing end-to-end workflows, real-time data synchronization, and scalable application architecture.

WORK EXPERIENCE

SEVENUNIQUE TECH SOLUTION PVT. LTD., JAIPUR

Frontend developer

JULY 2024-DEC 2025

- **Fintech (B2B & B2C Platform)**
Collaborated in a frontend team to design and develop the entire React.js web application, including reusable components, form validations, and API-integrated workflows for financial services.
- **Company Website (SevenUnique)**
Contributed to the development and maintenance of the company's main website (sevenunique.com), building responsive UI components and improving frontend structure and usability.
- **Worked on multiple client projects across fintech, service-based, and business websites, delivering production-ready, responsive web interfaces.**

PERSONAL PROJECTS

FULL STACK WEB DEVELOPMENT

1. Real Time ride booking web app

- Developed a full-stack MERN application with real-time location tracking using Socket.IO.
- Integrated Google Maps API for route rendering, distance calculation, and ETA estimation.
- Implemented frontend-backend state synchronization to manage the complete ride lifecycle.
- Built a responsive UI using Tailwind CSS and enhanced user experience with GSAP animations.
- **Live at**

2. Full-Stack Video Streaming Application

- Built a full-stack video streaming application using Next.js, MongoDB, and Tailwind CSS, implementing server-side APIs for media upload, retrieval, and playback.
- Integrated ImageKit for secure image and video storage with optimized CDN-based delivery.
- Designed end-to-end frontend-backend workflows, including data modeling, API validation, and responsive UI.
- **Live at**

FRONTEND WEB DEVELOPMENT

Personal Portfolio Website

- Developed a responsive personal portfolio website using React.js, Tailwind CSS, and GSAP for smooth UI animations.
- Designed and implemented interactive sections, project showcases, and contact forms with polished user experience.
- Optimized layout and animations for performance, responsiveness, and cross-device compatibility.
- **Live at**
